

## ▶ OPTICAL ALARM DEVICE SO-Wd11

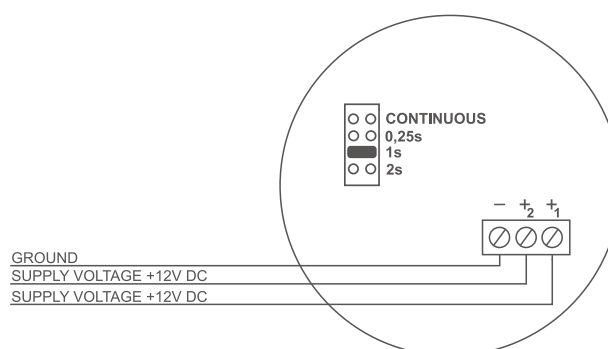

### ▶ Product description: \_\_\_\_\_

- The SO-Wd11 optical alarm device is destined for optical signalling by the set of LED diodes in burglar alarm systems.
- The SO-Wd11 optical alarm device is intended for indoor applications.
- Selection one of three different flashing frequencies.
- Continuous lighting option.
- Red or orange colour of the shade.

### ▶ Connection diagram: \_\_\_\_\_

Jumper settings:	
CONTINUOUS	continuous light
0,25s	flash frequency 4Hz
1s	flash frequency 1Hz
2s	flash frequency 0.5Hz

► **Technical data:** \_\_\_\_\_

Supply voltage	12V DC
Current consumption in the off-state	0mA
Current consumption at 12V DC	<35mA
Ingress protection	IP 53D
Dimensions	ø115x63mm
